13. (Secret - GLC) Made arrangements with [redacted], DDS&T, for him to be contacted by representatives of the [redacted]. This is in response to a request from Ed Hartung, Senate Appropriations Committee staff, I will advise Hartung as to how this contact should be made.

14. (Confidential - GLC) Contacted Barbarba Bingley, in the office of Representative Gilbert Gude (R., Md.) in response to a question the Congressman had posed about the number of persons with convulsive disorders who are now employed by the Agency. I told her that while we did not keep a detailed accurate record of the cases of this type, the Chief of our medical staff had advised me there were at least six such cases he could think of offhand and probably an additional five to six that did not come to mind immediately. Miss Bingley asked if I knew how many of these people had the condition when they were employed by the Agency. I told her I had no information on this but would assume that probably as many as half of these people had been employed in past years when we had taken on some applicants with a history of convulsive disorders.
